Gifts That Give

Because **the majority of St. Jude funding comes from generous donors**, St. Jude has the freedom to focus on what matters most – saving kids regardless of their financial situation. **Every dollar makes a difference.**

$1,700	could help provide **one day of intravenous chemotherapy**.
$4,000	could help cover the cost of **one day in the ICU**.
$6,500	could help cover the cost of a **CT scan**.
$8,300	could help provide two St. Jude patients with **proton therapy**.
$14,000	could help cover the cost of **50 hours of physical therapy**.
$15,600	could help provide a weekly **grocery stipend for two years**.
$20,000	could help provide **one day of inpatient care for two St. Jude patients**.

When you make a donation using this information, your donation will be used to provide breakthrough research, treatment and cures. Items listed here are representative of services and supplies that are part of the treatment and care of children at St. Jude. The cost of each item or service is an approximation, and will vary based on actual costs incurred and individual patient needs. Your donation will be used for the general operating needs of St. Jude, where no family ever receives a bill for treatment, travel, housing or food.
