Our Unique Mission

Finding cures. Saving children.®

St. Jude Children's Research Hospital® is leading the way the world understands, treats and defeats childhood cancer and other life-threatening diseases.

St. Jude patient **Hayden**, eye cancer

Families never receive a bill from St. Jude for treatment, travel, housing or food – so they can focus on **helping their child live**.

Thanks to generous donors like you, **St. Jude can give our doctors and researchers the tools and technology they need to make the next groundbreaking discovery**.

Every child deserves a chance to live their best life and celebrate every moment. When you support St. Jude, **you can help make cures possible for kids with cancer**. Together, we can save more lives.

St. Jude is **helping make lifesaving treatments available to more children in more places** – because **where they live shouldn't determine if they live**.

Because the majority of St. Jude funding comes from generous donors, we have the freedom to focus on what matters most – **saving kids regardless of their financial situation**.

20 80

St. Jude has helped push the overall childhood cancer survival rate in the U.S. from 20% in 1962 to more than 80% today. We won't stop until no child dies from cancer.
