St. Jude patient **Georgia,**
blood cancer

Why St. Jude?

Our laboratories may not be in your communities,
but our discoveries are.

Families never receive a bill from St. Jude for treatment, travel, housing or food – so they can focus on **helping their child live.**

Thanks to generous donors like you, **St. Jude can give our doctors and researchers the tools and technology they need to make the next groundbreaking discovery.**

Every child deserves a chance to live their best life and celebrate every moment. When you support St. Jude, **you can help make cures possible for kids with cancer.** Together, we can save more lives.

20 80

St. Jude has helped push the overall childhood cancer survival rate in the U.S. from 20% in 1962 to more than 80% today. We won't stop until no child dies from cancer.

Unlike the U.S., in many countries, only 1 out of 5 children who develop cancer will survive. That's why **we're helping make lifesaving treatments available to more children in more places** – because **where they live shouldn't determine if they live.**

St. Jude Children's Research Hospital®
Finding cures. Saving children.

There are great **children's hospitals, research institutions** and **charities.**

St. Jude is **all 3.**

1 CHILDREN'S HOSPITAL

St. Jude sees more than 9,000 people a year for treatment and research of childhood cancer and other catastrophic diseases.

Thanks in part to better therapies St. Jude has helped to develop, **more than 80% of U.S. childhood cancer patients now become long-term survivors.**

2 RESEARCH INSTITUTION

St. Jude conducts clinical trials and publishes research to **turn laboratory discoveries into lifesaving treatments.**

St. Jude was the **first children's hospital to make a major investment in pediatric cancer genome sequencing.**

3 CHARITY

Because the majority of St. Jude funding comes from generous donors, we have the freedom to focus on **what matters most – saving kids regardless of their financial situation.**

In the years ahead, an estimated **89% of the funds** necessary to sustain and grow St. Jude **must be raised by** ALSAC from **generous donors.**

St. Jude Children's Research Hospital® is leading the way the world understands, treats and defeats childhood cancer and other life-threatening diseases. Join us in our lifesaving mission: **Finding cures. Saving children.®**
